## DRYS PLAN \$62,000,000 FIGHT ON

WESTERVILLE, O.-Twice as much money will be spent in the first year of prohibition by the Antisaloon League of America as it spent in the last wet

With national prohibition an accomplished fact, the Anti-saloon League proposes to spend \$62,000,000 in the next five years.

This is just \$12,000,000 more than the total cost of national prohibition, according to the league's figures, for its 25 years' fight.

Some items of the stupendous budget are: Aid to federal and state officials, \$16,235,000.

Publicity offices in 12 population centers of the United States, \$250,000.

A campaign to "tell the truth about prohibition," \$325,000.

Special educational campaign among traveling salesmen, \$200,000.

Mass meetings to arouse sentiment against bootlegging, \$1,775,000.

For campaign in Latin-America, \$6,860,300.

For world-wide campaigns, \$37,000,000.

The prohibition fight did not cease with the passage of the amendment," Ernest H. Cherrington, executive committee secretary of the Antisaloon League and general secretary of the World League Against Alcoholism, declares.

"Roughly we have three duties remaining. We

must see that the dry law is enforced in the United States. We must prevent illicit traffic in liquors from Latin-America and we must make the world safe for prohibition by making the Old World and the Orient dry.

This vast sum will come from the same old sources, says Cherrington, and the league is about to launch an appeal to church congregations and dry sympathizers everywhere.

The league's campaign of law enforcement will require, according to Cherrington, \$16,235,000 in the

"This money will be spent in aiding federal and state officers in prosecuting liquor law violators, in "educating public officials until they recognize whisky-selling is as much a crime as theft or murder," and in propaganda showing the evils of liquor and the advantage of absolute law enforcement.

"Just as municipal and state prohibition was ncompletely enforceable, so national prohibition canno be enforced so long as there is surrounding wet tera: tory," said Cherrington.

"The Antisaloon League is the dominant factor or the World League Against Alcoholism,

"It has the largest number of workers and the largest treasury in addition to the largest facilities for gathering funds. Therefore it must bear the greatest burden in bringing about world-wide prohibition."

The key to the Orient is Japan, the league holds and hence will spend \$45,000 in Japan in 1920 and a much larger amount in 1924 and the following three years to convert the Nipponese to prohibition.

## Mother! Teach the Children Their Daily Health Duty

You can't be too insistent!

FeW children find pleasure in the things most vital to their physical comfort and health, so it rests with the watchful mother to see that they are done. The child will be grateful in after years.

Chief among the functions recessary to the upbuilding of the little body, so that it will not be a dyspeptic, constipated body when it matures, is elimination regularly every morning. If the mothwill be insistent and allow nothing to interfere with it, it will soon become a habit, a daily routine that will not be forgotten throughout life.

There are times, however, when nature will not operate unaided. Then give Dr. Caldwell's Syrup Pepsin, which is a combination of simple lavative herbs with pepsin, and the headaches, the biliousness, the torpor will quickly disappear. It acts gently and without griping. and as it contains no narcotics and is pleasant to the taste, it may

be given to infants. Thousands of families have been regulated to healthy maturity with Dr. Caldwell's Syrup Pepsin.

A bottle can be bought at any drug store. In a large family there is always someone who would feel better for a dose of a good medicine like Dr. Caldwell's Syrup Pepsin.

In spire of the fact that Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in the world, there being over 6 million bottles sold each year. many who need its benefits have not yet used it. If you have not, send your name and address for a free trul bottle to Dr. W. B. Caldwell, str Washington Street, Montacello, Illinois.

## New IDEAL-Arcola Radiator-Boiler The IDEAL-Arcola is one of the world's newest and greatest of inventions. It is unique—being both a

Heat all rooms alike \$118

Boiler and a Radiator. Takes the place of a parlor stove, and distributes heat to the rooms, and through its water-jacket conveys the excess heat to connecting AMERICAN Radiators stationed in adjoining rooms. There is no coal-waste! Unlike stoves and hot-air furnaces, the IDEAL-Arcola with its water-backed surfaces does not burn out or rust out—it will easily outwear the building in which it is placed.

### Heats the most and costs least!

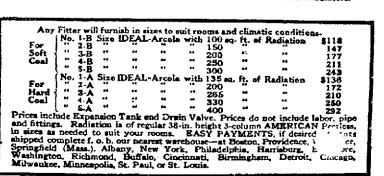

The Arcola and the AMERICAN Radiators are made in sections or units and can be increased or decreased in size (Note that 65% of all buildings are altered in size.) Legs cannot be kicked out, as with stoves-hence no fire-risk to building. Does not overheat-hence no danger to children. The soft, radiant, healthful, cleanly warmth changes a house into a home.

The Arcola may be painted or enameled in any shade or color to match woodwork or decorations. It is not obtrusive like a stove but may be peinted to harmonize with any furnithings.

### Shipped complete ready to operate

The beauty of the IDEAL-Arcola method is that no cella, is needed. Everything is on one floor. If there are two or more tenants in the building, each can have his own Arcola and make the temperature to suit his own needs—can make his own climate! If you do not wish at first to heat the entire building, buy a small size IDEAL-Arcola and one or two radiators (at prices lower than herein given) and later on buy extra sections for the IDEAL-Arcola and two or three more radiators to warm more rooms. Investigate at once this greatest value in building equipment.

Catalog showing open views of houses, individual flats, stores, offices, etc., with the IDEAL Arcola Boiler in position will be mailed (free). Write today

## "The Public Would Object"

ONE OF LIMA'S leading merchants dropped into the sanctum Saturday and said things didn't look very bright; said he was going down to New York to buy fall goods, but said the markets of the world are so stripped that buying is no snap and prices are high.

HE MENTIONED the garments left over from the present winter and said they would be soid at a discount. He also recited in an enlightening way how the cotton is being held in the south; how we are getting silk from Japan only, whereas we formerly got it from at least two other world markets, and said Japan is taking advantage of this to keep up prices that the shelves of Europe from where we formerly got much material are bare and the only hope of filling them is the United States. He showed the low profit the merchant is making and in an impartial way laid the facts about his business on the table.

AFTER HE HAD finished we asked why, if there are garments made up to conform to this year's styles, the designers did not say that styles for the next season will not change thus leaving the surplus from this year to help out next and ilms get the world stocked up again. This was his answer: "The public wouldn't stand for it; it wants something different."

THAT IS THE answer to much of our complaint about high prices. The people cry about the advances but do nothing to help bring them down. They want to work fewer hours and have more hixuries. They have themselves to blame, for everybody is buying and buying only the highest priced goods. 0 0 0 0

Unrewarded Devotion. TOROBABLY NO profession has shown greater devotion to its work than has that including teachers in our public schools. And what has been its reward?

TODAY THIS profession undoubtedly is paid less than any other. It amounts to less than that paid the common laborer in most cases. Why?

NONE CAN SAY the men and women who have worked thru weary years to gain an education and then impart knowledge to the younger generations should not share bounteously in the world's goods for it is upon them that the burden of molding the future falls.

WE HAVE IN Lima public schools a man who has given 50 years of his life to this teaching. He has not missed a day at his desk in that time, testifying to the unselfish devotion of the profession. Under his tutelage hundreds of men and women have gained the fundemental knowledge so necessary to success. Scores of these have gone out into the world and made good. None, probably, has rendered the service to society this man has, but few, if any, receive the low compensation paid school teachers in general.

LIMA PAYS its teachers as well as any city in the state. That is not enough. None pays salaries commensurate with the work done. It is time that we give a little more attention to this matter. Those who make it a life work and give the best they have are deserving of decent salaries. They do not get them now.  $\begin{smallmatrix}0&0&0&0&0\end{smallmatrix}$ 

### Scarcity of Homes.

▼ IMA NOW IS facing one of the worst home. shortages ever experienced. Real estate men declare they are at their wits end to determine how the population of this fast growing city can be properly housed. There are very few empty houses today for they are snapped up as soon as vacated.

THERE IS ONE sure way to have a home and know you will not be forced to move: buy it. That is insurance against being ousted and against being bothered with boosted rents. It also will make you a stockholder in one of the most progressive small cities in the country, one that is on the threshhold of a great era of prosperity.

ORGANIZED EFFORTS are being made to take care of persons coming here from other cities to work in our industries. The real estate board and others have what seems to be the only plan that will solve the problem—that of building houses in wholesale lots. With factories doubling their capacity and others coming here it will be necessary to take drastic steps to meet the situation. Now is the time to start. Help out by building or buying your own home.

Sore, Pains Shooting All Over His Body

Stomach Failed Him. Lived on Dict. Now Declares Dreco Has Done Him More Good Than Anything He

"Two years ago I had an attack of inflammatory rheumatism and was in a terrible condition," are the words

of Mr. Geo. Stout, a contractor of Oxford, Ohio, near Hamilton.
"I was crippled up, sore all over, the pains shooting all over my body; first in my feet, then my hands, next my hands, next my back and shoulders, then went to my stomach. I had an attack of gas-

hardly button my clothes.

"The pains and stiffness in my joints made it almost impossible for me to tie my shoes, but it's quite difterent now. To begin with, I've gained fifteen pounds; I enjoy every bite I eat for no more gas bothers me as béfore.

"I sleep extra time these mornings and I feel refreshed from it and hungary for breakfast. The rheumatism is all gone and I stoop and bend over and tie my shoes without a pain. The soreness is gone from my bowels. never got so much good from any

ordicine as I have from Dreco."

Dreco is composed of the juices and extracts of many different roots, herbs, barks and leaves, which act on the stomach, kidneys, liver, bowels and purify the blood. It relieves constipation, prevents gas forming in the stomach, increases the appetite, in-sures sound refreshing sleep, ban-ishes catarrh of the head and takes the pain out of rheumatic joints.

All good druggists now sell Dreco and it is highly recommended in Lima by Baldwin's Central Drug Store, corner Main and High streets.

If we bought a dollar's worth 150 groceries, etc., we could get A pound of real sugar. So we went to the store And we bought five dozen

Cans of tomatoes. A side of bacon, five bags Of oatmeal, much canned corn, And in fact enough stuff. To run an ordinarily availtious Boarding house for six menths. And then we slipped the hig idea Over on the groceryman:

We said: "Now we have bought About fifty dollars' worth Of your wares and you will Kindly come across with Fifty pounds of sugar." He said nothing but jetted The order for sagar Down with the rest. That evening several bushets Of produce arrived at our house, Down in the bottom of the basket

There was a note from the dealer. It said: "Here are the goods As ordered-all except The sugar. Upon investigation After you had left, I found That we were all out of sugar.

## This New and Modern Candy Antiseptic Is Better for Women

Why New and Modern Candy is Sometimes Better for Women than Old-Fashioned Medicine

How much easier and pleasa iter it is to take medicine, when n ces-sary, in an agreeable form. Every woman appreciates the pleasing and exquisite peppermint flavor o after-dimer mints. Partola mint sandles are the ideal laxuive and internal antiseptic for women. The are but the purest rout cardiers with laxathe purest mint condes with laxa-tive and antiseptic qualities added and without the slightes "medicine taste"

They do all that any laxative can do and are mild and pleasant but thoroughly effective in their action. They leave no unpleasant or weakening after-effects. In addition to their laxative action they possess very valuable antiseptic properties which tend to strillize and disinfect the whole digestive tract and help give protection against the millions of disease gerry which medical experts admit breed in this tract. It is this rouble purpose of Partola which makes it far more valu-

able than other lazatives. It is not to be confused with ordinary laxatives and there is nothing "just the same" or "just as good."

Go to your druggist today and get

a package of Partola and keep it in the home at all times. All good druggists sell Partola in 25c, 50c and

ARREN Kerrigan comes to the Rialto theatre, beginning Thurs- OUR OWN MOVIES day, in "The Joyous Liar," his newest Robert Brunton picture released by Hodkinson. A particularly clever story, combining the elements of comedy, adventure, love interest and situation thrills, was writted especially for Mr. Kerrigan. The hero is a wealthy artist who is arrested for an alleged attempt to steal the heroine's car, resulting from his having really saved it from thieves. The Girl's father, Warren, is an amateur criminologist, who, for the sake of studying and reforming them, has had several criminals as his guests

Burke Harlan, the hero, could easily prove his identity, but when offered the chance to "reform" be becoming the patient of Warren, he accepted the offer in a spirit of mischief. The girl does not know that he is a "criminal," and naturally, implications arise. Harlan tells bloods curlding tales of his terrible past, and to make matters worse, he falls in love with the daughter, who, by the way, is played by Lillian Walker, the girl with the famous dimples.

After that point there is a regular forrent of action, with humor and dramatic suspense effectually combined. You all know the capricious Jack, and in this picture he lives up to his reputation. At the Rialto for three days.

"THE BOOMERANG" TONIGHT.

David Belasco's presentation of "The Boomerang" is booked for an appearance at the Faurot tonight. Preiminary reports on earnings for 1919, is expected shortly and the best opinion is it will show not far from \$25 a share for common stock after taxes are deducted.

Some important interests in International Paper are sanguine that it is not too much to expect earnings for 1926 to approximate \$46 as share for the junior issue with some estimates running as high as 20 per cent advance in prices for its products.

The market hesitated around noon as traders awaited possible rendering of a decision of the supreme court in the stock dividend case. Upon announcement on the floor that no important decisions would be rendered, those who sold their stocks, proceeded to buy them back.
